

Empowered lives.
Resilient nations.

Biodiversity and Ecosystem Services Network

Promoting dialogue between science, policy and practice,
to build capacity for sustainable management of
biodiversity and ecosystem services worldwide

What we offer

Thematic Areas

Use this one-stop-shop for online learning and networking on a variety of themes related to biodiversity and ecosystem services.

Policy Support

Access the latest, context-specific information and resources on policy support tools and methodologies.

Networking

Connect with scientists/knowledge holders, policy makers and practitioners. Join/start discussions, conversations and polls.

Matchmaking

BES-Net will be involved in capacity building matchmaking activities, based on the needs of its Partners. You can now look for vacancies in the field of biodiversity and ecosystem services.
