PERÚ

Ministerio
del Ambiente

We need innovative, efficient, competitive, socially responsible and environmentally friendly companies, capable of improving the quality of life and increase the welfare of society as a whole.

This is where public policy should focus. These are the companies that should be supported and promoted by public and private sector.

When we awake in 2062: Visions of Peru in 50 years.

Seminario, Sanborn and Alva, Editors.

Sustainable Public Procurement

Criteria relationship between price / quality and impartiality of procurement procedures	Observations
<p>1. Environmental:</p> <ul style="list-style-type: none"> ✓ Avoid buying the production of waste products with a longer shelf life or rechargeable products ✓ Reduced consumption of resources ✓ Good use of energy consumption in the selection of products ✓ Purchasing products easy to recycle ✓ Products exclude hazardous substances to the environment and human health ✓ That product inputs come from a recycling process 	<p>Ecoefficiency National accounts Public investment Projects - PIP</p> <p>Many of these criteria are in an early stage. Some are more progress than others, but not apply to all public procurement in the country</p>
<p>2. Socials:</p> <ul style="list-style-type: none"> ✓ Promotion of socio-labor integration ✓ Maintaining working conditions ✓ Supporting the social economy ✓ Compliance with legislation - non-discrimination, equal opportunities, etc. 	
<p>3. Ethical:</p> <ul style="list-style-type: none"> ✓ Products and vendors to ensure decent working conditions throughout the supply chain of the product and service performance ✓ Respect the conventions of the International Labour Organization ✓ Guaranteed no use of child labor ✓ Transparency in the origin of products and traceability ✓ Supporting products and fair trade organizations as an alternative

Green growth initiatives

- National public investment system green (Formulate projects related to ecosystem services and biodiversity)
- Environmental National Accounting:
 - Coordination with international organizations (ONU-Banco Mundial-CEPAL) and nationals (INEI - MEF)
 - WAVES Project (Wealth accounting and valuation of ecosystem services - promote sustainable development, tending the use of national accounts to measure and plan economic growth including the value of natural resources)
 - EVA Project (environmental value accounting assessment - gain a better understanding of changes in the capital of ecosystems and human welfare implications)

PERÚ

Ministerio
del Ambiente

Green growth initiatives

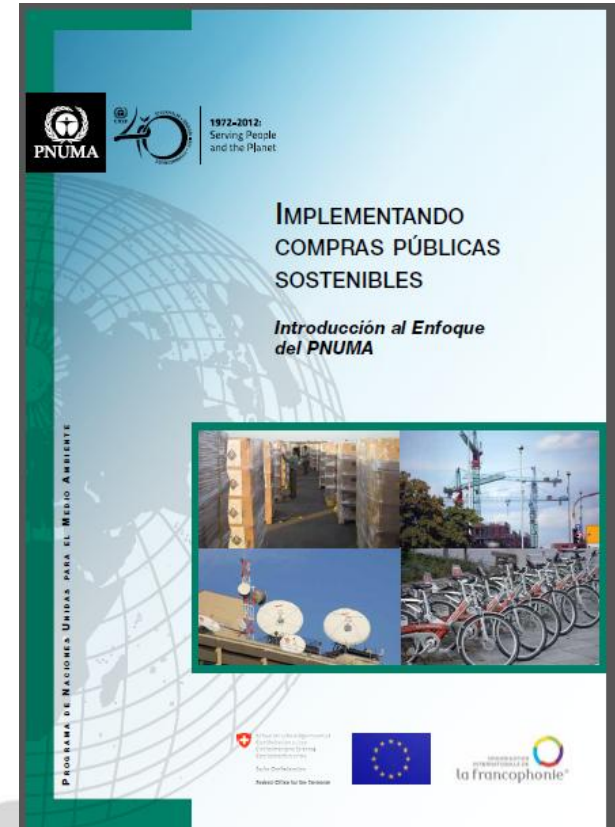

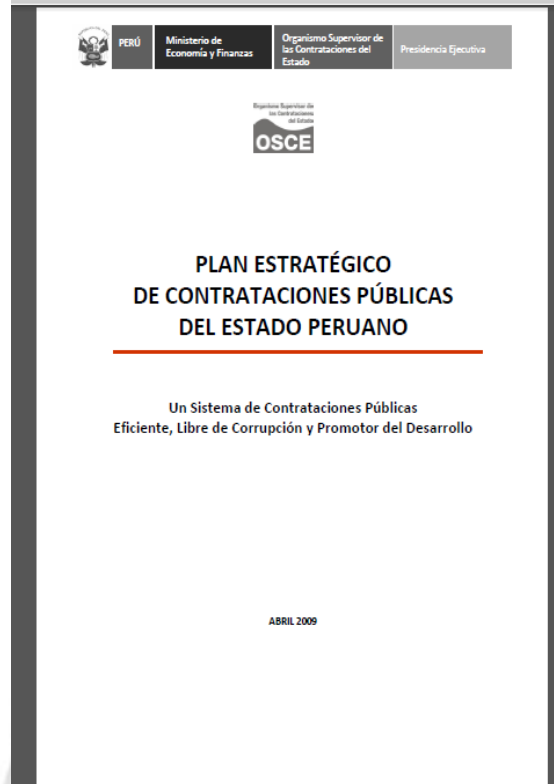

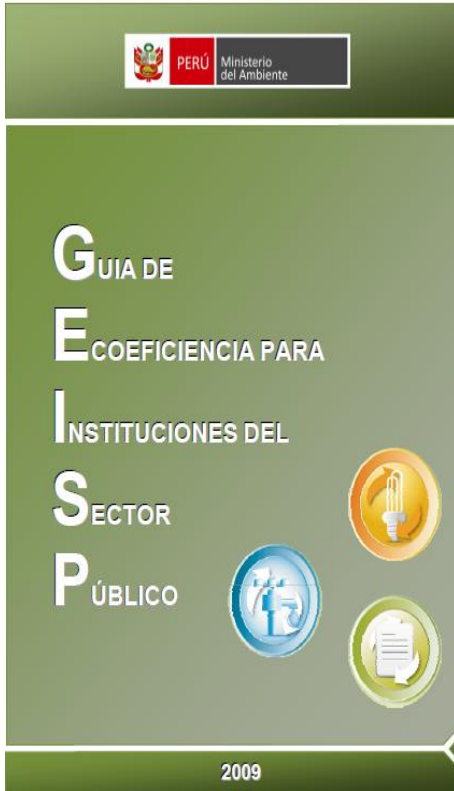

- National Forest conservation Program for the mitigation of Climate Change for the permanent protection of 54 million ha of forest.
Supporting indigenous people and promoting new sustainable activities, more than any wood.
- BIOFIN: Pilot global project from UNDP.
- ECOTRADE (Program Policy Support Peruvian Export Promotion of Organic Products) from local governments.
- PAGE (Partnership for Action on Green Economy) with green jobs
- Peer to Peer Program (For an inclusive and sustainable development in Latin - Fiscal Policy)

Measures and initiatives adopted

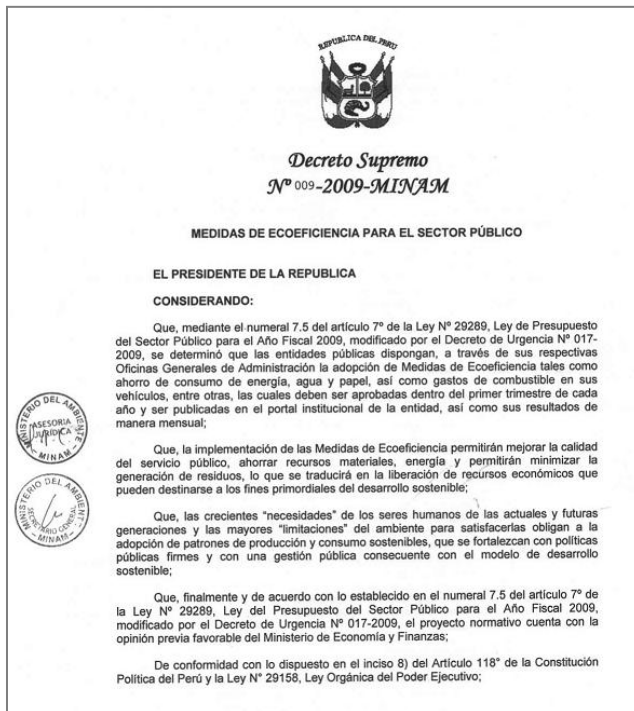

PERÚ

Ministry
of the Environment

REGULATIONS, DIRECTIVES AND AGREEMENTS

- Supreme Decree No. 009-2009-MINAM "Eco-Efficiency Measures for Public Sector".

The purpose of the Decree is to approve the eco-efficiency measures that have the effect of savings in public spending, according to the provisions of paragraph 7.5 of Article 7 of Law No. 29289, Law of Public Sector Budget (FY 2009)

In the following years, the consideration of eco-efficiency measures for public sector (SD No. 009-2009-MINAM) are reflected in the additional provisions of the budgets laws .

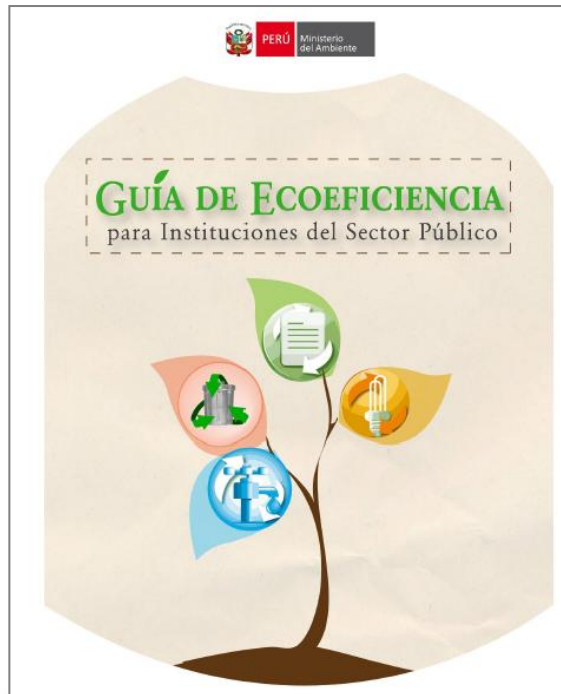

PERÚ

Ministry
of the Environment

REGULATIONS, DIRECTIVES AND AGREEMENTS

- Eco-Efficiency Guide for public sector institutions.

The aim of the guide is to facilitate the process of identification, implementation and monitoring of actions arising from the application of the concepts of eco-efficiency.

It also provides a list of suppliers of clean energy, water, office supplies, among others.

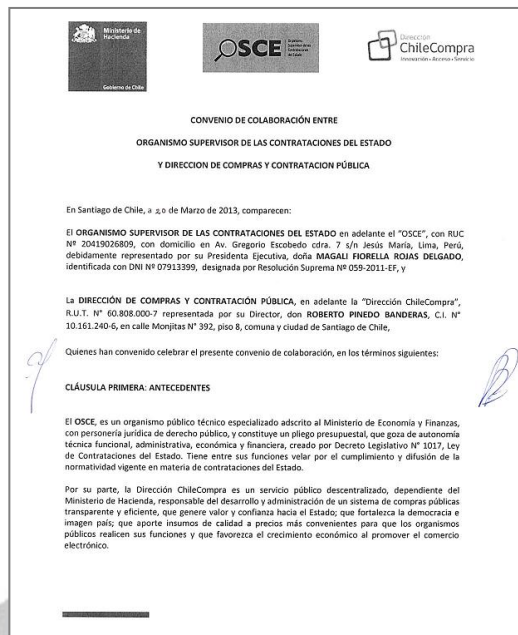

PERÚ

Ministry
of the Environment

REGULATIONS, DIRECTIVES AND AGREEMENTS

- Agreement between Supervisory Agency the State Procurement (OSCE - Peru) and Procurement and Public Contracting (ChileCompra - Chile)

Third clause :

...The OSCE is interested in the information and training that "ChileCompra" can deliver, especially in matters of the framework agreement, tools for improving and standardizing procurement, sustainable procurement, among others

PERÚ

Ministry
of the Environment

PROJECTS

- Project "Technical cooperation between Chile and Peru to the development of sustainable public procurement in both countries." In the framework of the Program Peer to Peer - P2P (ECLAC, ILPES, GIZ)

- Project "Stimulating Demand and supply of sustainable products through sustainable public procurement and Eco-labeling" - Proposal by UNEP (Evaluation Stage)

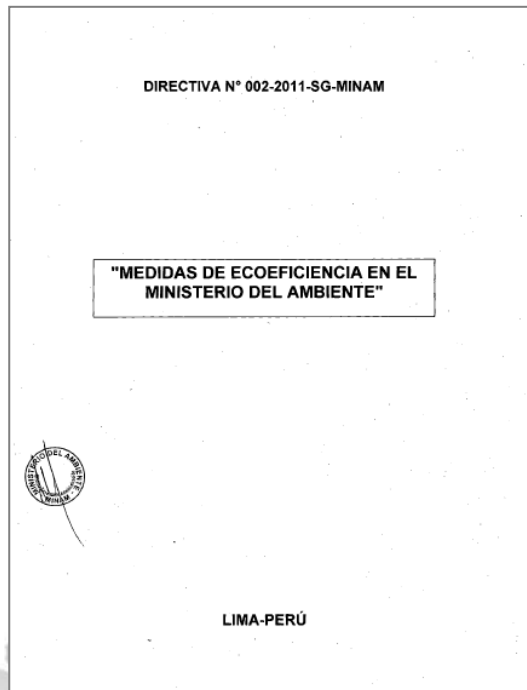

PERÚ

Ministry
of the Environment

MEASURES ADOPTED INTO THE MINISTRY

- Directive No. 002-2011-SG-MINAM "Eco-Efficiency Policy Measures in the Ministry of the Environment"

Establish eco-efficiency measures to improve the quality of public services, generating savings in public spending that affects compliance MINAM budget targets, contributing to environmental preservation.

PERÚ

Ministry
of the Environment

Key issues

Challenges/barriers

- a) Lack of an agreed definition of sustainable public procurement.

- b) Peru approved the Supreme Decree (184-2008-EF) regulatory of State Procurement Law (No. 1017). Which states the guiding principles procurement (article 4) linked to sustainability. **However, the practical implementation of the criteria is situated in a initial phase.**

d) Implement sustainability criteria in public procurement (ex. technical specifications) made by government social programs such as Qaly Warma, Community Kitchens, among others.

e) Promoting environmental sustainability criteria in specific interinstitutional agreements on public procurement.

f) Learning from projects implemented in international experience

g) Enhanced the stakeholders engagement

PERÚ

Ministerio
del Ambiente

How to learn form experiences

- Capacity building on sustainable “buying”
- Enhanced cooperation between countries
- Share experiences
- Studies and analysis on legislation, market availability/influence and appropriate technology.
- Market analysis for the supply chain in the public sector.

PERÚ

Ministry
of the Environment

Thank you very much
