Hyderabad CMS VATAVARAN – International Biodiversity Film Festival and Forum

October 1 – 19, 2012

CMS Environment in association with National Biodiversity Authority, India and Ministry of Environment and Forests, Govt of India is hosting International Biodiversity Film Festival and Forum in Hyderabad as part of COP-11 to the Convention on Biological Diversity from Oct 01 – 19, 2012. The festival will include screening of best of Indian and international films on biodiversity issues and COP-11 agenda for the festival delegates from Oct 01 – 19, 2012. Each film we will bring to you in this festival is not only good to see, but is also good to think about.

The CMS Environment Team has been involved multifariously in policy research and programmes evaluation aimed at creating sustainable solutions for environment protection. The team's thematic focus is on climate change, low carbon practices, biodiversity conservation, drinking water and sanitation and livelihoods. India's premier film festival on environment and wildlife, CMS VATAVARAN is also an initiative (started in 2002) of the eclectic CMS Environment team. This year besides Hyderabad, Dehradun, Jaipur and Goa are the other cities where the biodiversity film festival and forum has been hosted.
