

EVERLAND ZOOLOGICAL GARDENS 「ZOO-TOPIA」

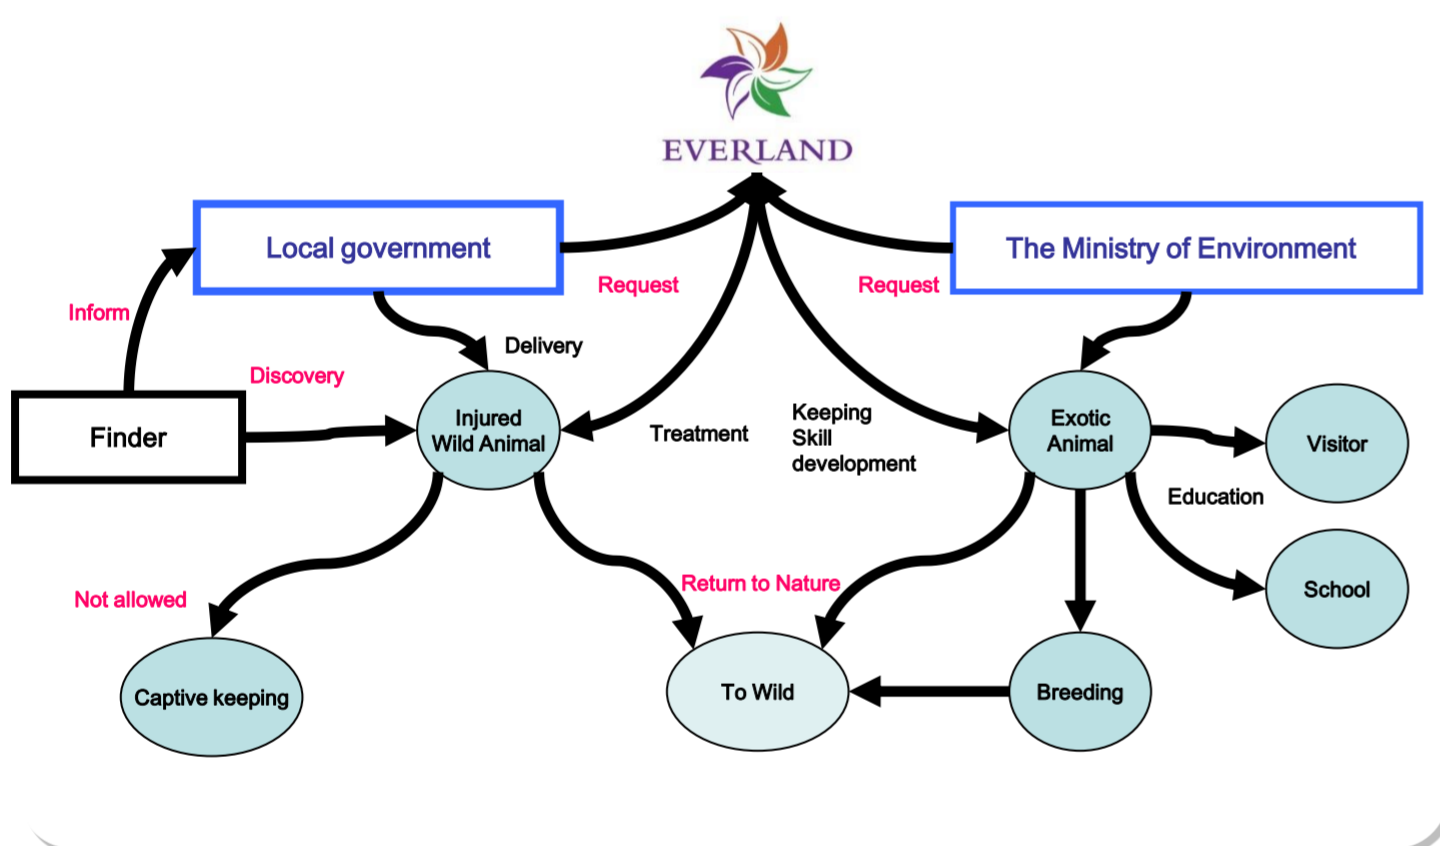

EVERLAND ZOO has been implanting the love for animals in both children and adults for almost 40 years since it opened in April 1976, and is now developing to become a 21st century nature and ecological theme park zoo. The word 'ZOO-TOPIA' is a combination of Zoological and Utopia, which mirrors the picture of the zoo of the future, which is what EVERLAND ZOO is pursuing, where animals and people can live happily together.

Biodiversity : What we have done and will do continuously be doing?

-  **Goral release back into wild**
-  **Injured animal caring**
-  **Flamingo, Ibis, Golden Monkey breeding**
-  **Children education
