

JAA

(Jugend-Aktionsprogramm Artenschutz)

Youth Action Programme for the Conservation of Species

Who are we?

stands for...

NAturschutz**JU**gend

- **German Youth Association for the**
- **Protection of Nature**

Who are we?

- We are the independent youth organisation of NABU - the largest nature protection organisation in Germany
- We have 80 000 members between 6 and 27 years
- We were founded in 1982

Approach of JAA

- **Explore – Experience and Observe – Protect**

Explore...

... Experience & Observe ...

... Protect!

Approach of JAA

- **Explore – Experience and Observe – Protect**
- ⊙ **Campaigns with young people to protect regionally red-listed native species of annex IV of the EU Fauna-Flora-Habitat (FFH) Directive**

Beaver
regionally red-listed
(annex II)

Sand Lizard
regionally red-listed
(annex V)

Daubendron's bat
regionally red-listed
(annex III)

Little owl
regionally red-listed
(annex V)

Approach of JAA

Campaigns with young people to protect regionally native species of annex IV of the EU Flora-fauna-habitat (FFH) Directive

Offers for 13 to 16 year-olds in youth groups and school classes.

Goals

- ♦ **Sensitize and motivate youth to protect native species**
→ **gain young experts**
- ♦ **Support youth groups**
- ♦ **Strengthen volunteer commitment:**
Seminars on wildlife conservation

outdoor education
cooperative game
„Across the wall“

A group of people, mostly young women, are sitting on a grassy field. They are gathered around and looking at handheld GPS devices. One person in the foreground is holding a yellow GPS device, and another person in the middle ground is also holding a yellow GPS device. The background shows green grass and some yellow flowers.

Use of technology GPS devices

Scientific work

Monitoring, report sightings

Goals

- ◆ Sensitize and motivate youth to protect native species
→ gain young experts
- ◆ **Support youth groups**
- ◆ Strengthen volunteer commitment:
Seminars on wildlife conservation

founding new youth
groups
provide equipment

Goals

- ◆ Sensitize and motivate youths to protect native species
→ gain young experts
- ◆ Support youth groups
- ◆ **Strengthen volunteer commitment:
Seminars on wildlife conservation**

Contribution to the Aichi targets

- ◆ **Target 1: education for biodiversity**
- ◆ **Target 5: habitat protection**
- ◆ **Target 12: build habitat to protect species**
- ◆ **Target 18: cooperation with local initiatives**
- ◆ **Target 19: spread knowledge and broaden science base**
