Biodiversity

Cobourg Peninsula Aboriginal Land & Wildlife Sanctuary, Northern Territory

Biodiversity is the variety of all life forms on earth - the different plants, animals and micro-organisms and the ecosystems of which they are a part.

Conservation of Australia's biodiversity

National framework

- [Australia's Biodiversity Conservation Strategy](#)
- [Australia's Native Vegetation Framework](#)
- [Biodiversity conservation](#)
- [Legislation](#)

БЪЛГАРСКИ ПОРТАЛ ЗА БИОРАЗНООБРАЗИЕТО
CHM

Българският портал за биоразнообразието е част от световния механизъм за обмен на информация, изграден от Конвенцията за биоразнообразието (Clearing House Mechanism - CHM). Задачата му е да предоставя директно или да посочи къде може да бъде намерена необходимата ви информация за биоразнообразието.

Стартира конкурс за дизайн на лого и избор на предложение за официално лого на Международния ден за биологичното разнообразие за 2016. 10.03.2016
Тази година темата на Международния ден за биологичното разнообразие (МДБ) е насочена към присъединяване в онлайн общността и повишаване на осведомеността относно значението на биологичното разнообразие. В тази връзка стартира конкурс за дизайн на лого и избор на предложение за официално лого на Международния ден за биологичното разнообразие за 2016. Обявяването на конкурса може да намерите на следния интернет адрес: <https://www.cbd.int/idb/2016/>

HOME NEWS EVENTS MAP GLOSSARY ABOUT

Convention Biodiversité Mise en Oeuvre Coopération CHM-Burundais Information et liens

PLANTE DU MOIS

Oxyris quadripartita Salzm. ex Decne. (Syn: *O. lanceolata* Hochst & Steud.) est un petit arbuste hautement menacé au Burundi suite aux prélèvements illicites par des exploitants étrangers.

BIENVENUE AU CENTRE D'ECHANGE DE LA REPUBLIQUE DU BURUNDI

Le [Centre d'échange \(CHM\)](#) dans le cadre de la Convention (CDB) est un instrument d'échange d'informations conçu pour promouvoir et faciliter la coopération technique et scientifique en vue de réaliser les trois objectifs de la Convention à savoir:

- la conservation de la diversité biologique,
- l'utilisation durable de ses éléments et
- le partage juste et équitable des avantages découlant de l'usage des ressources biologiques.

Ce site web est la vitrine de la contribution burundaise à cette initiative mondiale. Il fournit des informations relatives à la Biodiversité de la République du Burundi. Il vous offre également plusieurs options pour consulter les informations disponibles sur la Diversité Biologique à travers le monde.

The screenshot shows the homepage of biodiversitycanada.ca. At the top, there is a navigation bar with three main sections: "POLICIES & STRATEGIES", "STUDIES, REPORTS & OTHER RESOURCES", and "GET INVOLVED".

Under "POLICIES & STRATEGIES", the following items are listed:

- 2020 Biodiversity Goals and Targets for Canada
- Canadian Biodiversity Strategy
- Biodiversity Outcomes Framework
- Access and Benefit Sharing
- Provincial and Territorial Policies
- Convention on Biological Diversity
- National Reports to the CBD
- The Importance of Nature
- Ecosystem Status and Trends 2010
- Biodiversity Publications
- Education and Awareness
- News & Events
- UN Decade on Biodiversity
- International Day for Biological Diversity

The central banner features the title "Caring for Canada's biodiversity" and "Highlights of Canada's 4th national report to the Convention on Biological Diversity". Below the banner is a video player with navigation controls (back, forward, pause).

Text on the right side of the page includes:

- What is Biodiversity?
- United Nations Decade on Biodiversity
- Canadian Biodiversity: Ecosystem Status and Trends 2010
- Caring for Canada's Biodiversity
- Canadian Nature Survey

At the bottom of the page, a paragraph reads:

Helping protect Canada's biodiversity, while encouraging the sustainable use of our biological resources, is a responsibility that all Canadians can share. With our population of more than 34 million people, we can play a role in preserving the immense natural wealth and valuable ecosystems from which we draw significant social, economic and environmental benefits. Bordered by three oceans, the second-largest nation in the world, Canada is rich in biodiversity, and we depend on it for our survival.

We invite you to celebrate the [UN Decade on Biodiversity \(2011-2020\)](#) and to explore this website. Learn about our country's biodiversity and actions Canada is taking to conserve our biological resources.

STATUS QUO OF BIODIVERSITY

CHM Award Ceremony - 9 December 2016, Cancun, Mexico

Democratic Republic of Congo

<http://cd.chm-cbd.net>

Existing
National
CHM

The screenshot shows the website interface for the CHM in the Democratic Republic of Congo. The browser address bar displays "cd.chm-cbd.net". The navigation menu includes "HOME", "NEWS", "EVENTS", "MAP", "PHOTOS", "GLOSSARY", and "ABOUT". The main header features the CHM logo, the text "Centre d'Echange d'Informations de la RD Congo", and "Convention sur la diversité biologique". A search bar and language selection buttons for "French" and "English" are present. A dark navigation bar contains menu items: "Convention", "Biodiversité", "Mise en Oeuvre", "Protocole de Nagoya", "Coopération", and "Informations et liens". The main content area features a large image of gorillas in a forest. Below this, there are sections for "DERNIERES NOUVELLES DU SCDB" with three news items, a "BIENVENUE SUR LE SITE DU CHM DE LA REPUBLIQUE DEMOCRATIQUE DU CONGO" section with a list of roles and a list of activities, and a "CALENDAR OF EVENTS" for November 2016. The calendar table is as follows:

Mo	Tu	We	Th	Fr	Sa	Su
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

At the bottom of the page, there are two small images: one of a frog and one of a cow. The text below the frog image reads "oeuvre de la Convention." The text below the cow image reads "Le CHM constitue aussi une vitrine nationale qui met en exergue les richesses dont regorge la République Démocratique du Congo ainsi que l'état de la mise en oeuvre de la Convention."

2011-2020
Décennie des Nations Unies pour la biodiversité

La *Convention sur la diversité biologique* a pour objectifs « la conservation de la diversité biologique, l'utilisation durable de ses éléments et le partage juste et équitable des avantages découlant de l'exploitation des ressources génétiques » (article premier). Elle est ainsi le premier accord mondial complet à prendre en compte tous les aspects de la diversité biologique : les ressources génétiques, les espèces et les écosystèmes.

Elle reconnaît que la conservation de la diversité biologique est « une préoccupation commune à l'humanité » (préambule) et fait partie intégrante du processus de développement.

Le *Centre d'Echange pour la Convention sur la diversité biologique* cherche à promouvoir la coopération scientifique et technique à tous les niveaux entre les parties à la convention. Il facilite également l'accès à l'information sur la diversité biologique et son échange dans le monde entier.

Le Centre d'Echange français est un *portail d'information* sur les actions entreprises par la France métropolitaine et d'outre-mer. Il fournit l'information, les liens et les conseils utiles en relation avec les dispositions de la convention et sa mise en oeuvre en France et en Europe.

Le Centre d'Echange s'inspire également du principe de participation, selon lequel chacun doit avoir accès aux informations relatives à l'environnement. Il répond ainsi aux besoins de communication entre les différents acteurs concernés.

What is the Clearing-House Mechanism of the United Nations Convention on Biological Diversity?

The Clearing-House Mechanism (CHM) is an international network that gathers and distributes information on biological diversity in support of the United Nations [Convention on Biological Diversity](#) (CBD). The network comprises national information sharing and exchange programmes established in CBD member-countries. The Jamaica CHM, a department of the [Natural History Museum of Jamaica](#) at the [Institute of Jamaica](#), serves as the Jamaica's biodiversity information network.

COP 22 À LA CCNUCC

MARRAKECH COP22|2016|CMP12 UN CLIMATE CHANGE CONFERENCE

Un million d'arbres plantés en une seule journée.

Une initiative nationale consistant en la plantation de plus d'un million d'arbres en une seule journée a été lancée sur 210 périmètres à travers tout le territoire national. Le Haut-commissariat aux eaux et forêts et à la lutte contre la désertification (HCEFLCD) a lancé, samedi, une initiative nationale consistant en la plantation de plus d'un million d'arbres en une seule journée, sur 210 périmètres à travers tout le territoire national.

Le coup d'envoi de cette initiative concomitamment au déroulement des négociations de la COP22 à Marrakech du 7 au 18 novembre 2016 a été donné par le Haut commissaire aux eaux et forêts et à la lutte contre la désertification, Abdeladim Lhafi, dans la province d'Erhamna (à Azib Sidi Bouathmane, commune de Jbilat) en présence du gouverneur de la province de Rhamna, Farid Chourak.

REPUBLIQUE DU TOGO

Bienvenue sur le portail central du CHM Biodiversité au Togo

MEETINGS AND EVENTS

- Atelier national de validation du Plan National d'Adaptation aux Changements Climatiques (PNACC) et de présentation des résultats du premier Inventaire Forestier National (IFN) dans le cadre de la REDD+

Le Togo s'est engagé depuis plusieurs années dans une stratégie volontariste de développement durable et de lutte contre le réchauffement climatique. Les axes principaux sont la lutte contre: les mauvaises pratiques de production dans les secteurs économiques; la non maîtrise de la démographie; et l'incidence élevée de la pauvreté qui est exacerbée par les impacts négatifs des changements climatiques, renforçant la vulnérabilité des secteurs productifs et la pression sur les ressources naturelles. A cet effet, un document du PNACC a été élaboré. De même avec l'appui de la coopération allemande, le MERF exécute depuis 2014 le Programme ProREDD+ Appui au REDD+ Readiness et réhabilitation des forêts au Togo » avec la réalisation du premier Inventaire Forestier National (IFN) dans le cadre de la REDD+. Il est prévu du 25 au 26 octobre 2016 un atelier pour les deux programmes.

DERNIÈRES NOUVELLES CDB

- Statement of the Executive Secretary of the Convention on Biological Diversity on the occasion of the Sustainable Ocean Initiative / Pacific Ocean Alliance Regional Workshop for the Pacific Islands, 31 October to 4 November 2016, Apia, Samoa
- Statement of the Executive Secretary of the Convention on Biological Diversity on the occasion of the Fifty-Second Session of the International Tropical Timber Council and Associated Sessions of the Committees, 10 November 2016, Yokohama, Japan
- By 2050, an estimated 6.3 billion people will inhabit the world's towns and cities - an increase of 3.5 billion from 2010.
- The Convention on Biological Diversity (CBD) has published a detailed assessment of the implications of using climate

The screenshot shows the homepage of the Environmental Management Authority (EMA) of Trinidad and Tobago. The browser address bar displays www.ema.co.tt/new/. The website features a navigation menu with links for HOME, ABOUT US, LEGAL, FORMS & GUIDES, EDUCATION, MEDIA ROOM, KIDS ZONE, and CONTACT US. A search bar is located to the right of the menu. The main content area includes a large image of a green iguana on a branch, with the caption "Iguana Taking a Walk in The Aripo Savannas (Michelle Cazabon-Mannette)". Below the image, there is a "Tips:" section with a "Flooding" link. Three main service buttons are visible: "MAKE A REPORT" (with a phone icon), "SUMMARY CEC APPLICATIONS" (with a document icon), and "Media Releases" (with a list of items: "Plant a Tree to Combat Climate Change...", "Fish Testing to be conducted by US Food and Drug..."). To the right of the "Media Releases" button is a "NRSWCP" section featuring the "iCARE" logo and a cartoon character with the text "ronnie says: 'bin here. done that! recycle.'" and a recycling symbol.

Notícias

Finalização da Estratégia Nacional sobre a Biodiversidade

Moçambique finalizou hoje a elaboração da Estratégia Nacional de Biodiversidade que é o principal instrumento para a implementação dos objectivos da Convenção a nível nacional. A Convenção exige que os países integrantes preparem uma estratégia nacional de biodiversidade (ou instrumento equivalente) e que esta estratégia seja integrada no planeamento e actividades multi-sectoriais que possam ter um impacto (positivo e negativo) sobre a biodiversidade.

Lançamento do Clearing-House Mechanism de Moçambique

Moçambique lança hoje o seu novo Clearing-House Mechanism no âmbito da Convenção sobre a Diversidade Biológica.

A Convenção foi aberta à assinatura em 05 de junho de 1992 na Conferência das Nações Unidas sobre Meio Ambiente e Desenvolvimento (Rio "Cúpula da Terra"). Ele permaneceu aberta à assinatura até 04 de junho de 1993, época em que ele tinha recebido 168 assinaturas. A Convenção entrou em vigor em 29 de dezembro de 1993, que foi de 90 dias, após a 30ª ratificação. A primeira sessão da Conferência das Partes foi marcada para 28 novembro - 9 dezembro de 1994, nos Bahamas.

Biodiversidade Moçambicana

Importância da biodiversidade

A biodiversidade é fundamental para a economia nacional, contribui para o alívio da pobreza assim como para o desenvolvimento económico em geral. 90% da energia rural é proveniente da lenha e carvão e mais de 80% da população utiliza plantas medicinais e produtos não madeireiros diversos para a sua sobrevivência. Para além disso, 26,9 milhões de hectares de madeira são explorados comercialmente.
