

## STRATEGIC PRIORITIES (SPs) OF THE GLOBAL PLAN OF ACTION FOR ANIMAL GENETIC RESOURCES

	<b>STRATEGIC PRIORITY AREA 1 (SPA 1)</b>  CHARACTERIZATION, INVENTORY AND MONITORING OF TRENDS AND ASSOCIATED RISKS	<b>STRATEGIC PRIORITY AREA 2 (SPA 2)</b>  SUSTAINABLE USE AND DEVELOPMENT	<b>STRATEGIC PRIORITY AREA 3 (SPA 3)</b>  CONSERVATION	<b>STRATEGIC PRIORITY AREA 4 (SPA 4)</b>  POLICIES, INSTITUTIONS AND CAPACITY BUILDING
<b>NATIONAL</b>	<p><b>SP 1a*</b> Characterize animal genetic resources</p> <p><b>SP 1b*</b> Inventory animal genetic resources, monitor trends and risks associated with them, and establish country-based early-warning and response systems</p>	<p><b>SP 3</b> Establish and strengthen national sustainable use policies</p> <p><b>SP 4</b> Establish national species and breed development strategies and programmes</p> <p><b>SP 5</b> Promote agro-ecosystems approaches to the management of AnGR</p> <p><b>SP 6</b> Support indigenous and local production systems and associated knowledge systems of importance to the maintenance and sustainable use of AnGR</p>	<p><b>SP 7</b> Establish national conservation policies</p> <p><b>SP 8</b> Establish or strengthen <i>in situ</i> conservation programmes</p> <p><b>SP 9</b> Establish or strengthen <i>ex situ</i> conservation programmes</p>	<p><b>SP 12</b> Establish or strengthen national institutions, including national focal points, for planning and implementing AnGR measures, for livestock sector development</p> <p><b>SP 13</b> Establish or strengthen national educational and research facilities</p> <p><b>SP 14</b> Strengthen national human capacity for characterization, inventory, and monitoring of trends and associated risks, for sustainable use and development, and for conservation</p> <p><b>SP 18</b> Raise national awareness of the roles and values of AnGR</p> <p><b>SP 20</b> Review and develop national policies and legal frameworks for AnGR</p>
<b>REGIONAL</b>			<p><b>SP 10</b> Develop and implement regional and global long-term conservation strategies</p>	<p><b>SP 17</b> Establish Regional Focal Points and strengthen international networks</p>
<b>INTERNATIONAL</b>	<p><b>SP 2</b> Develop international technical standards and protocols for characterization, inventory, and monitoring of trends and associated risks</p>		<p><b>SP 11</b> Develop approaches and technical standards for conservation</p>	<p><b>SP 15</b> Establish or strengthen international information sharing, research and education</p> <p><b>SP 16</b> Strengthen international cooperation to build capacities in developing countries and countries with economies in transition</p> <p><b>SP 19</b> Raise regional and international awareness of the roles and values of AnGR</p> <p><b>SP 21</b> Review and develop international policies and regulatory frameworks relevant to AnGR</p> <p><b>SP 22</b> Coordinate the Commission's efforts on AnGR policy with other international forums</p> <p><b>SP 23</b> Strengthen efforts to mobilize resources, including financial resources, for the conservation, sustainable use and development of AnGR</p>

\*SP 1 has been split into SP 1a and SP 1b for the purposes of monitoring the implementation of the Global Plan of Action.
