Online National Reporting
A KM & ICT challenge and common interest for all MEAs

Florian Keil
**UNEP/AEWA Secretariat**

The MEA Information and Knowledge Management Initiative
1st Steering Committee Meeting
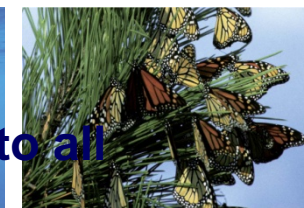

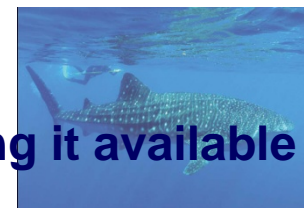

24 June 2010, Glion, Switzerland

Introduction

- **Facilitate Reporting = Core tasks of MEA Secretariats**
- **Collecting information from Parties and making it available to all**
- **To help monitor implementation**
- **Use of ICT & the Web to support reporting processes**
- **Clear mandate from our Parties for ONLINE REPORTING**

Online Reporting

- **Online Reporting Systems for MEAs**
- **Same challenges in terms of design**
- **Same end users: National Focal Points**
- **Same challenges in terms of getting FPs to use the online tools (training & capacity building)**
- **Same challenges in terms of analysing the information and making it available**
- **Common issues of: Data Security, System(s) stability, maintenance etc.**

- **Collecting information from Parties and making it available to all**
- **To help monitor implementation**

The CMS & AEWA Experience with Online Reporting

- **Online Reporting System – part of first DELC KM I Project (ended in 2008)**

- **Developed by UNEP-WCMC for CMS & AEWA**

- **Online National Report Generator – for all MEAs**

- **System to enable Secretariats to build online reporting tool themselves**

- **No Analytical Tool yet - was not part of KM I, but requested from Parties**

- **Clear mandate from our Parties to continue working with UNEP/DELC and WCMC to develop it further**

Online National Reporting: A KM & ICT challenge and common interest for all MEAs
