

A close-up photograph of a plant with green, elongated, succulent-like leaves and clusters of small, vibrant purple flowers. The flowers are arranged in dense, upright spikes. The background is slightly blurred, showing more of the same plant.

4th National Report
Chapter IV
SAMPLE

Jana Vavřinová, CBD NFP,
Ministry of the Environment of the Czech Republic

WHY? 😊

- That we still stayed calm about preparing the real 4th National Report...it is too far 😞 😊
- Our 3rd National Report was excellent 😊
- Nobody wanted to do the Chapter IV 😊
- Testing us before the CZ PRES - how we can work under pressure 😊
- Our 3rd National Report was really really good

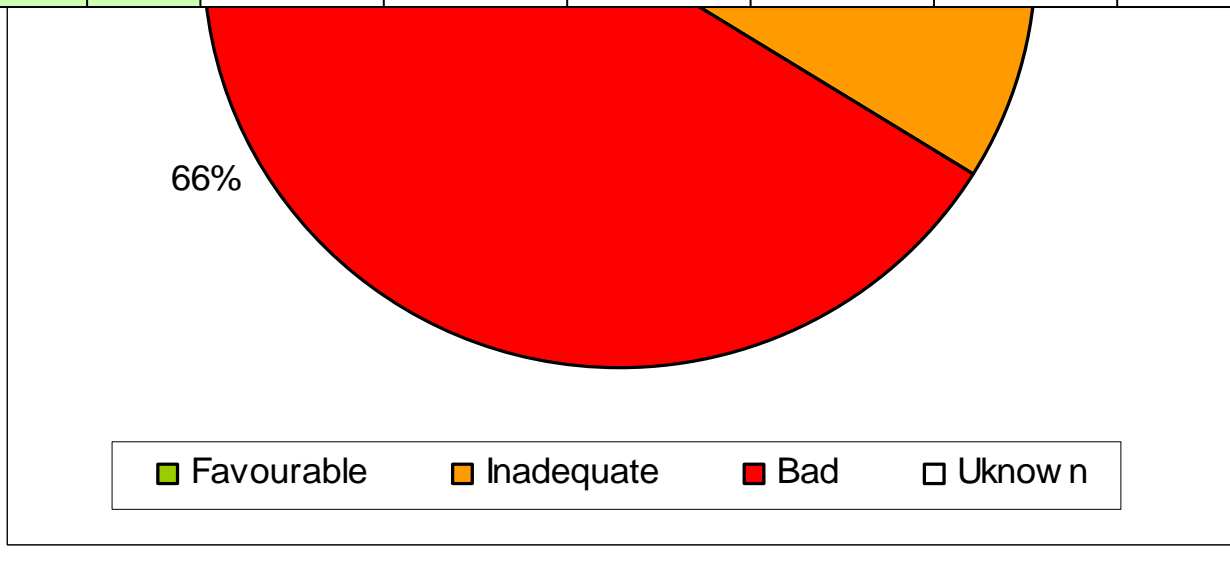

Insect - conservation status

ate...

Obstacles ?

- Chose a wrong format....had to remake it again
- → double time pressure
- → read carefully the assignment
- Lack of capacities
- Complicated language...
- Sometimes too much detailed...other later „notification“ not necessary
- Timing...always wrong

Thank you for your attention
