There is no shortage of tools and resources to help in the implementation of the Programme of Work on Protected Areas, but they are often dispersed and difficult to find in one place. This site enables you to quickly find and browse for tools by searching each of the different goals of the Programme of Work, searching specific topics and types of tools and resources, and by searching by language and geography. This database of tools and resources is still incomplete – please consider contributing and sharing your resources, including guidance materials, case studies, websites and more.
