# National Biodiversity Strategic Action Plan

## NBSAP Development Consideration

Important Considerations during development:

1. Aim at accomplishing CBD principle objectives
2. Nationally Action Driven & Practical
3. Wide Consultation (Ministries, NGOs, Province & Communities)
4. Stakeholders Participation
5. Ownership
6. Sustainably Supported
7. Priorities (All stakeholders)
8. Address resource owners livelihood

## Main Features of SI NBSAP

Components of National Biodiversity Strategies & Action Plans :

1. Biodiversity Importance and Benefits
2. Threats
3. Targets(Themes,Goals, Objectives and Actions)
4. Implementation Framework (Includes Priorities, Indicators, Time, Implementing Organisation & Partners, MoU etc)
5. Reporting and Monitoring
6. Provide linkage to other Programmes like PoWPA,CTI, NAPA,NAP etc

# National Biodiversity Strategic Action Plan

## Finalising NBSAP

- A draft working NBSAP under review.
- SI NBSAP need to be finalised (End of February)
- Submission to Cabinet and CBD Secretariat in March 2009
- NBSAP programmes implementation

# National Biodiversity Strategic Action Plan

## NBSAP Implementation

- MECM as an overseen implementing institution (in collaboration with the partners through MoU)
- Consulting NCSA Action 2008-2012 plans
- Utilising lesson learn (guidance) from other countries.

# National Biodiversity Strategic Action Plan

## Mainstreaming Biodiversity

- Policies- Incorporated biodiversity programmes in national policies and plan e.g,CNURA gov't policy, MECM corporate plan, MTDG,MDG,NAPA,NAP etc
- Legislations-To further consider, protect & sustainably utilise biodiversity
- Sector programmes- Integrate biodiversity priority for other sectors, e.g. agriculture, forests, fisheries etc
- Possible support institution established.

# National Biodiversity Strategic Action Plan

## Climate Change Impacts

- Climate change is been considered as a target for the NBSAP with a Strategy goal: “To ensure that pressures, impacts are addressed and climate change mitigation measures are adequately supported to protect the country’s biodiversity.”

# National Biodiversity Strategic Action Plan

## Communication, Education and Public Awareness

- Education and Awareness is part of NBSAP targets
- Limited experience on use of CEPA in NBSAP implementation

# National Biodiversity Strategic Action Plan

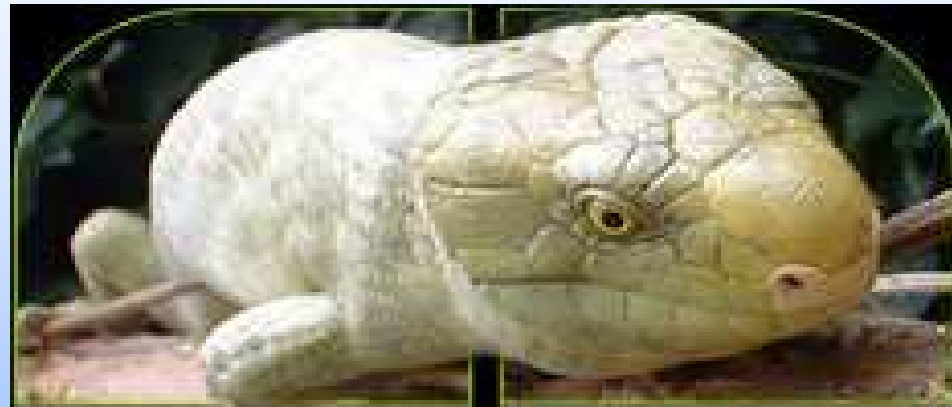

## Constraints & Obstacles to NBSAP development

- Need for active participation and contribution by all stakeholders (sector Ministries)
- Assistance in overseeing NBSAP programmes (planning, monitoring & reporting)
- The Limited capacity (institutional and systemic) within ECD to coordinate the NBSAP process.
- Need for more awareness on NBSAP and possible outsourcing.
- Availability of limited funds for development and implementation.
