

ANGOLA NBSAP: Conservation and Preservation of Biodiversity

Angola signed and ratified the CBD on the 4th July 1997 and became a member on the 1st April 1998. The process of research, listening and public consultation was carried out for a period of two years countrywide, involving 650 people from all the provinces including representatives Government Institutions, Traditional Authorities, Private Sector, Civil Society, Higher Education, Research Institutions, Local Communities and The Media, giving birth to the NBSAP in 2005-2006. Under the provisions of the present Framework Act article 13 of Law nr.5/98 of 19 June paragraph F of the article 112/113 and paragraph G of nr. 2 of the Article 114, approved the NBSAP, attached to this resolution and is an integral part hereto; The Ministry of Urbanism and Environment is the institution responsible for its implementation and report promptly to the Council of Ministries on an annual basis. NBSAP focus from Research and Information Dissemination.... to ... Management, Coordination and Monitoring

What did we achieve?

Research in Kuando Kubango Province (Coutada do Mucusso), preparation of a field guide for local forests, financed by USAID;
