

An International Review of the Ex Situ Plant Collections of the Botanic Gardens of the World:

- reviewing the plant genetic resource collections of botanic gardens worldwide, as a contribution to decision V/26 on Access to Genetic Resources of the Conference of the Parties to the Convention on Biological Diversity

Prepared by

Botanic Gardens Conservation International

Supported by

**The U.K. Government
Department of the Environment Transport and the Regions**

and

The Secretariat of the Convention on Biological Diversity

This report has been compiled and edited by

Peter Wyse Jackson

with the assistance of Barbara Bridge, Fiona Dennis, Etelka Leadlay, Chris Hobson, Fiona Holland, Trude Pendry, Jill Skilton, Lucy Sutherland, Julia Willison and Diane Wyse Jackson

BGCI also acknowledges with thanks the assistance, information and advice given by Isabelle Bagdassarian, Colin Clubbe, Maïté Delmas, David Galbraith, John Landell Mills, Michael Kiehn, Philippe Richard, Maricela Rodrigues Acosta, Tania Sampaio Pereira, Igor Smirnov, Kerry ten Kate, Jonathan Tillson, Suzanne Warner and Bert van den Wollenberg.

We are also very grateful to the hundreds of individuals and institutions that have made information and data freely available to BGCI, which has made possible the compilation to this comprehensive overview of botanic gardens worldwide and their collections.

BGCI acknowledges with thanks the support given by the U.K. Government and the Secretariat of the Convention on Biological Diversity, which has made possible the preparation of this report.
