Further to question 70, yet, no measure has been taken for the conservation of biodiversity outside the forest land. Some wetland, rivers and agricultural areas should be brought under protected area management system. Some legislative measures should be taken to preserve the biodiversity and gene pool outside the forest land.

Further to question 73, An appropriate and comprehensive guidelines for the selection, establishment and management of protected area is yet to be made. Bangladesh is in the process of establishing the same.

Further to question 74, Attempts are being made to manage biological resources important for the conservation of biological diversity with a view to ensuring their conservation and sustainable use. In Bangladesh 3 categories of protected areas, namely National Parks, Wildlife Sanctuary and Game Reserve have been established under the provision of Bangladesh Wildlife (Preservation) (Amendment) Act, 1974. These three categories of protected area have covered more than 126000 ha area of different ecosystems of the country. Bangladesh has further declared more than 40,0000 ha. Of some priority ecosystems as Ecologically Critical Area (ECA) under Environmental Conservation Act 1995.

Further to question 84, Bangladesh receives some financial and other support for *in situ* conservation indirectly from some projects, but not directly as *in situ* conservation activities.

Further to question 105, Bangladesh has been documenting traditional knowledge of the country since 1981. The activities are being taken by not only at the national institutes but a major role is played by the non-governmental organization like UBINIG, BARCIK, Bangladesh Seed Foundation (BSF) and several others. Bangladesh is in the process of developing a <i>sui generis</i> system for protecting traditional knowledge held by the rural community. Draft act on <i>Biodiversity and Community Knowledge Protection Act of Bangladesh</i> and <i>New Plant Varieties Act of Bangladesh</i> are under process.
Further to question 106, the draft act is developed in line with sharing benefit arising from the utilization of traditional knowledge, which is protected through <i>sui generis</i> system.
Further to question 107, the draft act is in the process of review.
Further to question 108, Bangladesh participated in expert level meeting in Geneva held in 2002 on Traditional knowledge.

Further to question 196, environmental conservation (amendment) Act, 2000 and Environmental conservation Rules, 1997 are already in place. But proper enforcement of those are limited. Sufficient provision has been made in the Environment Conservation Act, 1995, amendment, 2000, and Environment Conservation Rules, 1997 in respect of Environmental Impact Assessment so as to minimize the adverse impact on biodiversity and their habitat.

Further to question 197, presently EIA reports are reviewed by multi disciplining team of the Department of Environment with no participation of general public representative but sometimes concerned entrepreneur are asked to participate in the EIA review meeting to clarify the situation and to make them aware regarding the mitigation measures/Environment activities etc.

Further to question 198, all the national programs/project are reviewed likewise the EIA reports so as to asses the environmental consequences and to mitigate the adverse effect on biodiversity. At policy level provision has been made in the prescribed TAPP/PP of the national planning commission to identify the environmental impact due to the activities of the projects which covers the biodiversity aspects to some extent but no direct mention of the consequence on the biodiversity specifically mentioned in the said format.

Further to question 199, although Bangladesh not involved directly in the bilateral, regional and is or multilateral discussion on activities likely to significantly affect biological diversity out side the country's jurisdiction. Indirectly some To anticipation is made through SARRC/SACEP on environmental aspects in general which also cover to a limited extend on the aspect of biodiversity.

Further to question 204, Bangladesh is in the process of signing a MoU on Regional Oil Spill Contingency Plan which includes the Seas Region of South Asian Countries such as Bangladesh, India, Maldives, Pakistan and Sri Lanka which will address the issues of South Asian Regional Coastal and Marine Biodiversity. Moreover, a draft National Marine Pollution plan has also been prepared by Bangladesh and already been reviewed inter-ministerially for finalizing the same. This will also facilitate the implementation of the Regional Oil Spill Contingency Plan.
