

Please provide to following details on the origin of this report

Contracting Party	Denmark
National Focal Point	
Full name of the institution:	Danish Forest and Nature Agency
Name and title of contact officer:	Mr. Peter Egestad
Mailing address:	Haraldsgade 53 DK-2100 Copenhagen Ø Denmark
Telephone:	+45 3947 2620
Fax:	+45 3947 2690
E-mail:	pse@sns.dk
Contact officer for national report (if different)	
Name and title of contact officer:	Mr. Christian Prip
Mailing address:	Haraldsgade 53 DK-2100 Copenhagen Ø Denmark
Telephone:	+45 3947 2659
Fax:	+45 3947 2690
E-mail:	chp@sns.dk
Submission	
Signature of officer responsible for submitting national report:	
Date of submission:	

Please provide summary information on the process by which this report has been prepared, including information on the types of stakeholders who have been actively involved in its preparation and on material which was used as a basis for the report

In Denmark two ongoing processes are of key relevance to the understanding, documentation and registration of forest ecosystem biodiversity. These are:

- 1) The National Forest Programme, and
- 2) The National Strategy for Biodiversity and Nature Protection

The first is expected to be published in the spring of 2002, and the second will be published in the fall of this year.

Both processes include and have emphasised involvement of all interested parties.

Since the processes are ongoing, many of the answers in this report will be dependent on the outcome of these processes.

Decision IV/7 on Forest biological Diversity

1. What is the relative priority afforded to implementation of this decision by your country?					
a) High	X	b) Medium		c) Low	
2. To what extent are the resources available adequate for meeting the obligations and recommendations made?					
a) Good	X	b) Adequate		c) Limiting	
				d) Severely limiting	

3. Has your country assessed the status and trends of its forest biological diversity and identified options for its conservation and sustainable use? (Decision IV/7, paragraph 12)	
a) no	
b) assessment underway (please give details below)	X
c) assessment completed (please give details below)	
d) not relevant	

<i>If a developing country Party or a Party with economy in transition -</i>	
4. Has your country requested assistance through the financial mechanism for projects that promote the implementation of the focused work programme on forest biological diversity? (Decision IV/7, paragraph 7)	
a) no	
b) yes (please give details below)	

Programme element 1: Holistic and inter-sectoral ecosystem approaches that integrate the conservation and sustainable use of biological diversity, taking account of social and cultural and economic considerations

5. Has your country identified methodologies for enhancing the integration of forest biological diversity conservation and sustainable use into an holistic approach to sustainable forest management at the national level? (Work Programme, paragraph 13)	
a) no	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not applicable	
6. Has your country developed methodologies to advance the integration of traditional forest-related knowledge into sustainable forest management, in accordance with Article 8(j)? (Work Programme, paragraph 14)	
a) no	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	
d) not applicable	X
7. Has your country promoted cooperation on the conservation and sustainable use of forest biological resources at all levels in accordance with Articles 5 and 16 of the Convention? (Work Programme, paragraph 15)	

a) no	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not applicable	
8. Has your country promoted the sharing of relevant technical and scientific information on networks at all levels of protected forest areas and networking modalities in all types of forest ecosystems? (Work Programme, paragraph 17)	
a) no	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	
d) not applicable	X

Programme element 2: Comprehensive analysis of the ways in which human activities, in particular forest-management practices, influence biological diversity and assessment of ways to minimize or mitigate negative influences

9. Has your country promoted activities for an enhanced understanding of positive and negative human influences on forest ecosystems by land-use managers, policy makers, scientists and other relevant stakeholders) (Work Programme, paragraph 29)	
a) minimal activity	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not relevant	
10. Has your country promoted activities to assemble management experiences and scientific, indigenous and local information at the national and local levels to provide for the sharing of approaches and tools that lead to improved forest practices with regard to forest biological diversity? (Work Programme, paragraph 30)	
a) minimal activity	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not relevant	
11. Has your country promoted activities with the aim of providing options to minimize or mitigate negative and to promote positive human influences on forest biological diversity? (Work Programme, paragraph 31)	
a) minimal activity	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not relevant	

12. Has your country promoted activities to minimize the impact of harmful alien species on forest biological diversity? (Work Programme, paragraph 32)	
a) minimal activity	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not relevant	
13. Has your country identified means and mechanisms to improve the identification and prioritisation of research activities related to influences of human activities, in particular forest management practices, on forest biological diversity? (Work Programme, paragraph 33)	
a) minimal activity	
b) yes - limited extent (please give details below)	
c) yes - significant extent (please give details below)	X
d) not relevant	
14. Does your country hold research results and syntheses of reports of relevant scientific and traditional knowledge on key forest biological diversity issues and, if so, have these been disseminated as widely as possible? (Work Programme, paragraph 34)	
a) not relevant	
b) some relevant material, but not widely disseminated	
c) significant material that could be more widely disseminated (please give details below)	
d) yes - already widely disseminated (please give details below)	X
15. Has your country prepared case-studies on assessing impacts of fires and alien species on forest biological diversity and their influences on the management of forest ecosystems and savannahs? (Work Programme, paragraph 35)	
a) no - please indicate below whether this is due to a lack of available case-studies or for other reasons	
b) yes - please give below any views you may have on the usefulness of the preparation of case-studies for developing a better biological understanding of the problem and/or better management responses.	X

Programme element 3: Methodologies necessary to advance the elaboration and implementation of criteria and indicators for forest biological diversity

16. Has your country assessed experiences gained in national and regional processes, identifying common elements and gaps in existing initiatives and improving indicators for forest biological diversity? (Work Programme, paragraph 43)	
a) minimal activity	
b) yes - limited assessment made (please give details below)	
c) yes - significant assessment made (please give details below)	X
d) not relevant	

17. Has your country carried out taxonomic studies and inventories at the national level which provide for a basic assessment of forest biological diversity? (Work Programme, paragraph 43)	
a) minimal activity	
b) yes - limited assessment made (please give details below)	
c) yes - significant assessment made (please give details below)	X
d) not relevant	

If you have ticked any of the boxes in questions 5 to 17 above which invite you to provide further details, please do so here.

(Information can include descriptions of methodologies and of activities undertaken, reasons for success or failure, outcomes and lessons learned)

3b) A committee has been appointed by the ministers of agriculture and environment to draw up a report that shall function as the basis for the preparation of a strategy on biological diversity and nature protection in Denmark. They conclude their work by the end of this year.

5c) A National Forest Programme is under preparation and will be ready in the beginning of 2002. It emphasises the issue of biological diversity in forest and is co-ordinated with the above strategy.

7c) The two above strategies are co-ordinated among all interested parties and all specifications of these strategies will be co-ordinated as well. They aim at co-ordination between conservation and sustainable use of forest resources.

9c) cf. 3b and 5c

10c) The national forest and landscape research centre under the Ministry of Environment and Energy analyse and publish information concerning biodiversity in forests. They work in close co-operation with the Danish Forest and Nature Agency.

11c) Different public initiatives has been launched to protect forest biological diversity. Among these are subsidies for leaving forests untouched, subsidies to maintain forests of specific biodiversity interest, subsidies for managing in ways that gives special consideration to biodiversity, initiatives to maintain indigenous genetic material, subsidies for regenerating with indigenous species, etc.

12c) cf. 11c

13c) The Agricultural University in co-operation with the Danish forest and landscape research centre have prepared a publication, as part of the strategy for biological diversity, that identifies state of the art and future research needs.

14d) Research reports have been published from the Danish forest and landscape research centre.

15b) Research results have been published from the Danish forest and landscape research centre.

16) As part of the preparation of the Danish strategy for biological diversity and nature protection a set of criteria and indicators for forest biological diversity is being prepared.

17c) Recently a project has been launched to register all forests with an indigenous species mix. This year a new forest inventory system will be launched and a new forest inventory will be published.
