

Indonesia

22 May 2011, Minister of Environment, HE. Prof. Dr. Ir. Gusti Muhammad Hatta, MS., delivered his message to all stakeholders, which posted in website of MoE and distributed to media. The messages highlighted the important roles of forest biodiversity for livelihood and prevent global warming. Therefore, he asked all stakeholders to develop concrete action plan for sustainable use of forest biodiversity in order to create alternative income generation for local communities, development of agro forestry, financing mechanism, partnerships for market creation as well as benefit sharing for the utilization of forest genetic resources in accordance to the Nagoya Protocol. He conveyed his expectation for commitment from stakeholders to participate in conservation, sustainable use and equitable benefit sharing to increase community welfare. He encourages all local governments, universities, research institute and community to actively participate on the International Day for Biological Diversity 2011.

23 May 2011, Ministry of Environment in cooperation with Ministry of Forestry and Indonesian Research Institute celebrated International Day for Biological Diversity at Cibodas Botanical Garden and Gn. Gede Pangrango National Park.
