REPORT

Hi all! My name is Nature Club of Pakistan and I am going to tell you a bit about me. Nature Club of Pakistan is a group of environment friendly people who care about the future of life on this globe, this NGO love to keep surroundings as natural and healthy as Possible.

I keep on doing my bits to create love for nature and to motivate all to help me out by working with me. Would you like to know how can you work with me? Ok- let me tell you, I keep on arranging events to unveil the beauty of nature and to tell people that how nature help us to remain healthy/happy. Environment is the most important element of nature so we educate people that how we should care for it.

To achieve this goal I, the Nature Club arranges different programs in the subject of Botany, Zoology, Ornithology, Environment & Art which include Flower shows, Art competitions, Nature Study Programs and recycling promotions.

All shows and promotional programs are headed by Mr. MUHAMMAD RAZA KHAN, President of the club & its creative team. This team includes students from different educational institutes of Pakistan and they work with me as volunteers.

My team has enabled me to create lot of awareness in Pakistan, especially in the province of Punjab, about the importance of recycling & Flora & Fauna.

What I actually do is that I provide a platform for people to come up and get information about the threats that our environment is facing and motivate people to find solutions. We encourage new ways of thinking.

I, Nature Club, providing some the environmental is facing.

I organize these different venues arenas, schools.

myself have been excellent solutions to issues that Pakistan

prestigious events at such as art exhibition Gardens etc.

My creative Raza Khan are hold such events such willingness and

We make all that help the

team and Mr. all ways willing to where there are possibilities, desire.

arrangements

youngsters/people to observe/see/examine & understand the beauty of nature.

We bring the beauty of nature at the doorstep of the people that help them to conceive its Philosophy.

We also provide opportunities for people to express themselves, create and beautify things with their abilities.

Botanist of the Year, Environmentalist of the year, Flora & Fauna Art Contest, Aquarist of the year and Naturalist of the year Awards are the part of our regular calendar of events. We also arrange Nature/Environmental/Botanical Study Tours for students.

Note, that I am a very good friend of children. I make plans and hard work to approach people to get them involved in nature friendly activities.

In this show, I showcased many different kinds of flowers but *Roses remained as focal flower, Gerberas, Crispedia, Louisiana Irus and Armyllus*, which looked like a loud speaker and was greatly appreciated.

In the 2nd week of March-2010, Club contacted the school management and school management approved the request but we were given only five days to make all arrangements. Open courtyard of the school was provided for this event. It was a great challenge but we accepted it and in this short time all arrangements were finalized and done. In Lahore-Pakistan temperature was reasonably high so desert coolers and tenting arrangements were provided by us.

Students from play group till matric well attended the show and loved it. *Drawing, poetry, essay and photography competitions* were also held which greatly attracted the students.

Majority of Junior class students participated in painting and sketching competitions.

(PRESIDENT OF THE CLUB)

Whereas the students from class V to class VIII showed more interest in poetry, essay writing competitions and in drawing also. The senior most section of the campus loved to make photographs of the beautiful flowers for photography

competition. Principle and the faculty staff of the school attended the show and loved it.

Parents of the students also came to see the beauty of nature and appreciated my efforts. Like always, my all time friend, City42 – Local news channel, covered the show.

Encouraged by the feedback from previous shows, I was able to go for my fourth and I am further encouraged by this one to go forward. *If you want to work with me or help me in any way, you are always welcome.*

Visitors from every walk of life came to see the beauty of nature and appreciated my efforts. Like always, my all time friend, City42 – Local news channel, covered the show.

Encouraged by the feedback from previous shows, I was able to go for my fourth and I am further encouraged by this one to go forward. *If you want to work with me or help me in any way, you are always welcome.*
