call 974-55-949561 for more details

In support to the call of the UN Secretary Ban Ki-Moon to preserve our Ecosystem through "Biodiversity",
Arch. Adonis C. Canonicato in cooperation with **United Architects of the Philippines, Qatar Chapter**
will launch the programs which bring awareness to our fellowmen in all races.

Through the artistry of a well known Fashion designer **Jhoe Lina** and various **Filipino Visual Artists in Qatar**,
this call will yield support & understanding the preservation of nature, species both small & large.
The concept is to showcase the creativity interpretation on a fashion which will remind us that these natural
resources are essentials to our existence and that being the highest form of living creature we have the
responsibility to take care of our environment & maintain the balance of human cycle.
