

Environment

*I wonder why the trees are so tall
And I am so small
I wonder why the parrot can fly, walk and talk
And I can only talk and walk
I wonder why the tortoise can dive in a pool so cool
I wonder why the sky has so many different colours
Like some beautiful flowers
I wonder why the sun is so hot
Like a steaming pot
I wonder why the sea is so wide
And I also wonder that who can answer the questions of this
kind*
